

OUR MISSION

We want to do a good job for you today,
so you'll invite us back tomorrow.

FAMILY OWNED SINCE 1986

EXPERTS IN PIPELINE AND TANK MAINTENANCE

Bolin is proud to call Casey, Illinois home, though we work on a national level. We are a one-stop shop for most projects related to pipeline and tank maintenance. Our values include safety, quality, service, efficiency and innovation, and our reputation reflects it.

- Air-to-Soil and Atmospheric Coating Mitigation
- Casing Mitigation
- Cathodic Protection
- Certifications and Qualifications
- Depth of Cover Management
- Emergency Response
- Environmental Services
- Frac Tank Piping
- Fueling Systems Maintenance
- Hydrotest Assistance - Pipeline
- Hydrotest Assistance - Tank
- ILI Dig Staking
- Land Services
- Maintenance - Misc
- Marker Replacement
- One-Call Activity Monitoring
- Pig Tracking
- Pipeline Lowering
- Pipeline Surveying
- Pipeline Welding, Repair & Hydrotesting
- Prover Calibration Projects
- Pump Base Replacements
- Sandblasting and Painting
- UST/AST Nationwide
- Vacs, Fracs, Roll-Offs & Trucking
- Warehousing

OUR CUSTOMERS

Pipeline & Tank
Services

BOLIN

PIPELINE & TANK MAINTENANCE

For nearly 35 years, we have used the latest technologies and industry best practices when providing pipeline and tank maintenance services.

We provide a full range of pipeline and tank services adaptable to the specific needs of each client.

Dependable cost tracking, updates, and communication throughout each project is our cornerstone for success.

bolininc.com

Air-to-Soil and Atmospheric Coating Mitigation

Air-to-Soil
Asbestos & Lead Abatement
I-Rod System Installation
Pipe Support Updating with I-Rod

Casing Mitigation

Casing Prep, Test, Fill
Casing Removals
Test Station Installation
Vent Pipe Repair and Installation

Cathodic Protection

Cathodic Protection Surveys
Corrosion Technicians
Foreign Line Crossing & Reference Cells
Ground Bed Installations
Rectifier Installation
Test Station Installations
• Test Station Installs via Hydro-Excavation

Certifications and Qualifications

Asbestos Coating Removal Certified
Certified Coating Applicators
Federal DOT Certified Code Tank Inspectors
Hazmat Certified
ICC Certified
Lead Abatement Certified
NACE Certified Coating Inspectors
NACE CP Technicians
NCCER Authorized Training Facility
NTIP Certified
NWBOC WBE Certified
OSHA 10 and 30-Hour Certified
OQ Qualified
R-Stamp Certified

Depth of Cover Management

Concrete Erosion Matting Installation
Mechanical & Hydro Excavation
Pipeline Civil Surveying
Pipeline Coating, Inspection & Repair
Pipeline Exposure Repair
Rip-Rap Installation
Span Reconditioning & Inspection

Emergency Response

Disaster Relief
Emergency Back Up Generator Services
Emergegncy Fueling Services
Environmental Cleanup
Environmental Restoration
HAZWOPER 40-Hour
Temporary Fuel System
Vac Trucks, Frac Tanks, and Roll-Offs

Environmental Services

Asbestos Mitigation
Mold Mitigation
Site Cleanup & Restoration
SPCC Plan Preparation

Frac Tank Piping

Delivery and Assembly
High Pressure Hose
Hydrotesting of Piping and Componenets
Pipeline Mechanical Crew
Rental

Fueling System Maintenance

ATG Installation & Repair
Annual Inspections
Compliance Audit
Fueling and Fuel Delivery Management
Fuel Sampling, Filtering & Treatment
General Maintenance
Line and Tank Tightness Certification
Probe Installations
Reoccurring Fueling
Spill Bucket Testing
Sump Inspection

Hydrotests Assistance - Pipeline

Culvert Supply and Installation
First Responders for Releases
Leak Detection Assistance
Line Locating for Leak Detection
Pig Tracking and Dig Staking
Pre-Project Anomaly Staking
Rock, Sand & Lime Hauling & Spreading
ROW Clearing
Timber Mat Hauling and Placement
Tyar Installation

Hydrotests Assistance - Tank

High-Pressure Washing and De-Scaling
Mechanical & Hydro Excavation
Pontoon Inspection
Product Transfer
Rock Work
Roll-Off Supply & Disposal
Tank Bottom Vac Out & Disposal
Tank Cleaning
Tank Decommissioning & Recommissioning
Tank Line Nitrogen Purging
Timber Mat Hauling and Placement
Valve and Pipe Replacement
Water Fill / Discharge / Filtering

ILI Dig Staking

Accurate Measurement & GPS Dig Staking
Dig Site Access Information
Dig Site Sheets with One-Call Information
Landowner Contacting
Nearby Line Identification
Safety-Related Condition Reporting

Land Services

Dispute Resolutions
Land Damage Settlements
Landowner & Tenant Contacting
Permitting
Remote Tech Support
ROW Clearing Crew Inspection
Title Research

Maintenance - Misc

Bare Ground Weed Control
Road Installations
Sidewalk, Driveway, and Parking Lot Installation
Tank Dike Repair and Upgrade

Marker Replacement

Aerial Marker Installation & Repair
Facility Signage Replacement
Line Marker Replacement

One-Call Activity Monitoring

Aboveground Test Station Repair
Aerial Marker Repair
Encroachment Recognition & Reporting
Line Locating
Line Marker Repair & Installation
PHMSA Roadside Audit Prep
Third-Party Excavation Monitoring
Weed Trimming of Roadsides

Pig Tracking

Benchmarking & Documentation
GPS (sub-decimeter)
ILI, N2, Water Fill, Cleaning and Batching Tool Tracking
Passive and Active Tracking
Permanent AGM Installation
Pig Delivery, Storage, Cleaning and Re-building
Pig Transmitters Supply
Pig Tracker Live (shared with Customers for free)

Pipeline Lowering

Asbestos Coating Removal Certified
Coating Repairs
Final Grade Surveying
Pipeline Depth Assessment Surveying
Pipeline Lowering API RP 1117

Pipeline Surveying

Depth Profiles
Documentation & Reporting
GPS Surveying
ROW Assessment Surveying

Pipeline Welding, Repair & Hydrotesting

Certified Pipeline Welding
CIS, ICDA, and ILI Digs
Code-Tank (CT) Repairs
Manifolds, Spools, Emergency Stock Pipe
R-Stamp Repairs
Shop Welding, Fabrication, and Hydrotesting

Prover Calibration Projects

Hydro-Excavation
Prover Calibration Mechanical Crew
Vacs, Fracs, Water Haul * High-Pressure Internal Washing
Valve Replacements

Pump Base Replacement

Civil Concrete Work
Mechanical & Hydro Excavation
Pump Base Alignment Templates
Pump Base Alignment Without Cutting Pipe
Pump Base Grouting
Temporary Heating Structures

Sandblasting & Painting

Certified Applicators
DOT Cargo Tank Inspections
DOT/ CT Cargo Tank Repairs
Fertilizer Tank Interior Lining
Pipeline System Components
Shop and Field Services
Specialty Projects
• Acid Truck Restorations
• Certified Code Tank Repair
• Fiberglass Repair
• Food-Grade Tank Interior Lining
• Oil Field Truck Restorations
• State DOT Truck Restorations
Sumps, Valves, Manifolds, Piping, Motors, Pumps
Tank Interior Coating

UST / AST Nationwide Services

C-Store & Fueling Depots
Cathodic Protection Services
Civil Concrete Work
Class A/B Operator Services
Class C Site Training
Cleaning and Disinfection of Potable Water Tanks
Cleaning of Food Grade Tanks
Cleaning for Product Changes
Coating & Painting
Compliance Inspection and Audits
Federal, State, and Local Compliance
Fertilizer, Ag Chemical & Water Tanks
Hydroblast and Descale for Inspection
Inspection & Cleaning
Liner Cleaning for Inspection
Product Filtering
Repair / Removal / Installation

Vacs, Fracs, Roll-Offs & Trucking

Air-Knifing
Crane Services
Equipment Hauling
Flat & Box Semi Hauling
Frac Tanks
• 500 BBL Single Wall & 390 BBL Double Wall
Hydro Excavation
Industrial Dry Vacs
Liquid Tight, Lidded Roll Off Boxes
Roll-Offs
Tandem and Semi Dump Trucks
Tank Water Draws
Transports 145 BBL
Vac Boxes
Vac Trucks
• 20 (F550), 40, 60, 80-, 110 BBL

Warehousing

Climate Controlled, Dry, and Outdoor
Inventory Management
Long and Short Term
